

QUEEN CITY SOIL & STONE

Stone Wall Building Workshop information and directions

**Location: Red Wagon Plants, 2408 Shelburne Falls Rd.,
Hinesburg.**

Directions:

+From Burlington, take Dorset Street south past Irish Hill Road. Less than ½ mile past Irish Hill Road, Dorset continues straight but the main road makes a big bend to the left and becomes Shelburne Falls Road. Take that bend to the left and continue for another mile until you see four greenhouses next to red barns on the left just past Weed Road. Take a left at the Red Wagon Plants sign and park near the first greenhouse.

+From Hinesburg and points south, take 116 to Ballards Corners (the intersection with CVU Road). Take a left on Shelburne Falls Road and continue 2.5 miles. Red Wagon Plants appears on your right; the greenhouses are just beyond a set of red barns on the right. Take a right at the Red Wagon Plants sign and park near the first greenhouse.

If you need a ride, do not hesitate to contact Charley by the Monday before the workshop so arrangements can be made. Travel time from downtown Burlington is about 20 minutes when the roads are dry. If you have any concerns about the weather the morning of the workshop, call Charley: 802-318-2411.

What to bring with you:

Please bring the enclosed waiver with you to the workshop. We will be working in a warm greenhouse, so dress in layers. Please wear sturdy boots—steel-toed are best. Gloves and eye protection are good to have on hand, but are not necessary. One type of glove that works well is the cotton glove with rubber palms. Water will be provided. Bring a bag lunch if you would like; there are delis close by, too.
